

Exploratory Data Analysis

Data Mining (IF211)

Preprocessing & EDA

EDA

EDA memahami data melalui statistik deskriptif dan visualisasi sebelum modeling.

Teknik

- **Univariate:** Histogram, box plot, value counts
- **Bivariate:** Scatter plot, correlation matrix
- **Multivariate:** Pair plot, heatmap

Ringkasan

EDA: descriptive stats + visualization. Identifikasi distribusi, korelasi, outlier, missing patterns. EDA menginformasikan preprocessing dan feature engineering.
